

Quality Management Declaration

Toagosei (Thailand) will, from the start of business transactions with suppliers, customers, and other business partners, continuously coordinate and cooperate throughout the duration of the transaction regarding all items, including matters such as specifications for raw materials/products, quality assurance periods, and applicable laws and regulations.

1. When any of the following changes occur in agreements with business partners, we will coordinate and communicate in writing (or equivalent documentation):

- ✓ Changes to raw materials or composition
- ✓ Changes to manufacturing processes/conditions
- ✓ Changes to quality inspection/evaluation methods
- ✓ Changes to packaging form/packing, etc.
- ✓ Any other changes considered likely to affect quality

2. In the event of an abnormality in raw material quality, we will request investigation of the cause and submission of corrective/preventive action proposals.

In the event of an abnormality in our products, we will investigate the cause and report the results.

3. Documents to be requested or submitted at the start of transactions

- ✓ Raw material/product specifications or product drawings
- ✓ Safety Data Sheet (SDS)
- ✓ Certificate/Guarantee of Non-use of Environmentally Hazardous Substances
- ✓ RoHS Directive Compliance Certificate/Guarantee
- ✓ Other documents required to commence the transaction

4. Reporting regarding applicability of laws/guidelines/regulations

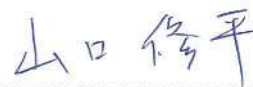

With respect to the items being transacted, if there is any change (or potential change) in applicability/non-applicability to domestic or overseas laws, guidelines, regulations, etc., we will instruct business partners to report promptly.

If our products fall under the above, we will promptly report to our business partners.

5. Confidentiality of documents

Documents received/submitted shall not be disclosed to any third party.

Announced on 19 June 2026

(Mr. Shuhei Yamaguchi)
